Principal's Message

On behalf of the staff of the New Liskeard College of Agricultural Technology, I would like to congratulate you on the publication of your 1984 Yearbook and to thank you for your cooperation and assistance during the past year.

To the Class of '84, I would like to offer my special congratulations on your graduation. Although we have had individuals from other classes who displayed as much promise as you, I feel that as a class your overall enthusiasm for your studies as well as your extra curricular undertakings is at least equal to any other class we have had. You have set an excellent example which I hope the Class of '85 will follow.

Although there has been much publicity in recent years of the lack of career opportunities, I am still confident that for those of you who are willing to work at it, agriculture still offers as promising a future as ever.

Good luck!

D.W. Taylor
Principal

**Minister
of
Agriculture
and
Food**

The Honourable Dennis Timbrell

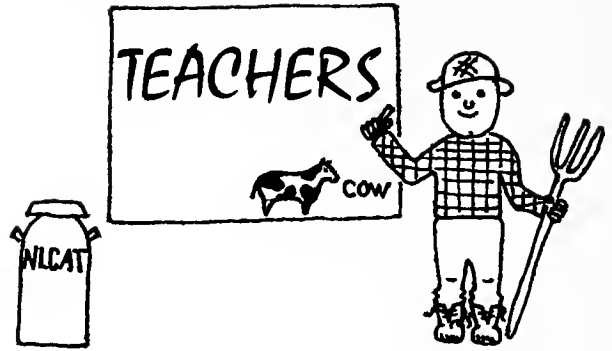

I am pleased to have this opportunity to congratulate the 1984 graduates of the New Liskeard College of Agricultural Technology. Your successful completion of the diploma course of study demonstrates your commitment to agriculture and to the need for knowledge of the current technology in this industry.

Special funding from the provincial government's Board of Industrial Leadership and Development (BILD) has assisted the Ministry of Agriculture and Food in improving the education facilities at your college. I know you are pleased with these improvements and I would like to thank you for your cooperation during the construction phase over the past year.

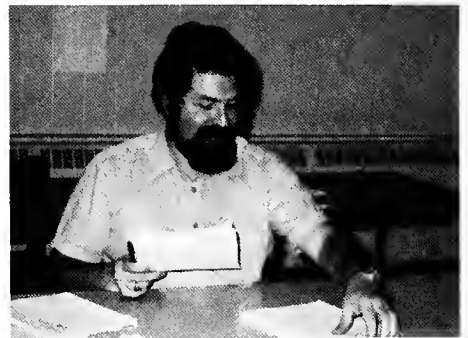

Just as we have seen the need to upgrade facilities to meet the challenges of tomorrow, so too I hope that you recognize the necessity of constantly upgrading your skills to remain current on agricultural technology. I wish each of you the very best in all of your future endeavours.
